Experienced Software Engineer with a robust foundation in B2B and B2C e-commerce solutions, driven by a strong interest in technical leadership, Scrum best practices, and advancing toward a solution architect role. Proficient in C#, ASP.NET, MSSQL with extensive experience integrating complex payment and tax systems like Copy&Pay, TaxJar, and CyberSource. Demonstrated ability to collaborate effectively with global clients across South Africa, Saudi Arabia, Australia, and the U.S. Recently led the development of a scalable, microservices-based e-commerce platform for Shwapno, Bangladesh's largest super shop, ensuring both efficiency and adaptability. A dedicated open-source contributor to NopCommerce, I bring a global perspective, technical expertise, and a continuous drive for innovation to every project.

WORK EXPERIENCE

Senior Software Engineer

Brain Station 23 PLC

March, 2021 - Present

■ Shawpno eCommerce Platform

Description: Worked on a microservices-based eCommerce platform utilizing gRPC, RabbitMQ, MongoDB, API gateways and Angular-based admin panels, with Firebase notifications for mobile apps. Additionally, contributed to the integration of payment gateways such as SSLCommerz, Nagad, bKash, and City Bank

Technologies: *ASP.NET Core, gRPC, RabbitMQ, MongoDB, Angular, Next.js, Firebase, Azure DevOps, MSSQL, Payment API*

Reference: <https://www.shwapno.com/>

■ Macsteel B2B eCommerce (South Africa)

Description: Contributed to the development of one of South Africa's top B2B eCommerce platforms, built on NopCommerce, with SAP ERP integration for real-time sales and inventory sync. Customized pricing and specific warehouse for specific customers and groups.

Technologies: *NopCommerce, C#, ASP.NET Core, SAP ERP, MSSQL, Barcode integration*

Reference: <https://shop.macsteel.co.za/>

■ NopCommerce Development

Description: Contributed core features to NopCommerce, including discount toggling, Facebook authentication, multi-factor authentication, reCAPTCHA for guest checkout, and integrations with Google Analytics and Sendinblue. Also contributed to building plugins such as Ecomail Marketing Automation and CyberSource Payment Gateway.

Technologies: *NopCommerce, C#, ASP.NET Core, MSSQL, Sendinblue API, Google reCAPTCHA, Ecomail API, CyberSource API*

Reference: <https://github.com/nopSolutions/nopCommerce/commits?author=fuadhasan28>

■ Online Point of Sale (POS) System

Description: Led a team of three developers to develop an advanced online POS system based on NopCommerce. The system includes an AJAX-based frontend and supports multiple payment methods, enabling the handling of multiple customers. Customers can add products to their cart online and complete the purchase at the POS terminal, with the option to register during the purchase process. Integrated SMS gateway for OTP-based login, and developed functionality to generate product labels with barcodes, SKU labels, and price tags. The system also supports multi-store management, POS store configuration, POS user management, supplier management, purchase and purchase return management, expense management, custom unit configuration, POS invoice types, payment option configuration, supermarket and restaurant-type POS store support, and kitchen management for restaurant-type stores.

Technologies: *NopCommerce, C#, ASP.NET Core, MSSQL, AJAX, REST APIs, SMS Gateway*

Reference: <https://www.nop-station.com/point-of-sale-pos-for-nopcommerce>

■ Delivery Management System (DMS) Plugin for NopCommerce

Description: Developed a comprehensive DMS plugin with REST API endpoints for integration with a delivery person's mobile app. The admin panel allows for shipment management, assignment of delivery personnel, shipment status updates, label printing with barcodes, and proof of delivery (POD) checks. The system includes push and email notifications to both delivery personnel and customers. Delivery personnel can scan shipment barcodes to start deliveries, with POD required to complete deliveries in the form of a photo, signature, or OTP.

Technologies: *C#, ASP.NET Core, REST APIs, NopCommerce, Barcode integration, Push notifications*

Reference: <https://www.nop-station.com/dms-documentation>

■ NopCommerce Plugins and Themes Development as Brain Station Product

Description: Worked on a variety of NopCommerce plugins, including WebApi (REST API), Web API Notification (Mobile push notifications), TaxJar (tax plugin), ZohoCRM (CRM plugin), Copy&Pay (HyperPay) (payment plugin), Ajax Filter, OnePage Checkout, SQL Manager, Sales Report, HelpDesk (help ticket plugin), and AdvancedSEO (SEO plugin). Additionally, contributed to the development and customization of NopCommerce themes such as Kingdom, NopGadget, and Cape Town, enhancing user experience and performance

Technologies: *NopCommerce, C#, ASP.NET Core, MSSQL, REST APIs, Mobile Push Notifications, ZohoCRM API, HyperPay API, SQL, JavaScript, jQuery, AJAX*

Reference: <https://www.nop-station.com/nopstation-plugins>

TARBIYAH CMS Development

Description: Developed and maintained the TARBIYAH CMS for the Tarbiyah Institute, an online platform offering a variety of Islamic educational courses. The system facilitates course enrollment and payment, providing an easy-to-use interface for students and instructors.

Technologies: ASP.NET, Entity Framework, jQuery AJAX, MSSQL, Payment Gateway(bKash, SSLCommerz)

EDUCATION

B. Sc in CSE

Daffodil International University

Passing Year: 2020

Higher Secondary School Certificate

Kazi Md. Shofiqul Islam College

Passing Year: 2016

Secondary School Certificate

Bangladesh Gas Field's School & College

Passing Year: 2014

VOLUNTEER ACTIVITIES

Bangladesh Olympiad in Informatics

• Volunteer Co-ordinator

January, 2019 - March, 2020

- Co-ordinating volunteers & manage the contest floor.
- Contest environment setup.

Daffodil International University Computer & Programming Club(DIU CPC)

• Vice President

January, 2019 - January 2020

• Press Secretary

January, 2018 - January 2019

Organized multiple international and national level programming contests (including ICPC- Dhaka Regional, BdOI- National Round, NGPC), seminars, workshops, training programs for the students of Daffodil International University and international conferences including International Joint Conference on Computational Intelligence- IJCCI.
