Senior Software Engineer | Certified NopCommerce Developer |
B2B/B2C E-Commerce & ERP Integration Specialist

Dhaka, Bangladesh

Summary

Certified NopCommerce Developer and Senior Software Engineer with 3+ years of experience designing and scaling B2B & B2C eCommerce platforms, ERP integrations, and enterprise-grade plugins. Skilled in ASP.NET Core, C#, and modern microservices architecture, I help businesses improve operations and customer experience through robust, future-ready solutions.

#Core Focus Areas:

- *NopCommerce customization & plugin development

- *Microservices-based eCommerce platforms (gRPC, RabbitMQ, MongoDB, Next.js)

- *ERP & CRM integrations (SAP, Zoho, TaxJar)

- *POS system architecture & enterprise app development

#Key Achievements:

- *Integrated SAP ERP for Macsteel, enabling real-time sales & inventory sync across 10,000+ SKUs.

- *Led development of a NopCommerce-based POS system used in 50+ retail stores, featuring multi-store support, SMS OTP login, barcode scanning & kitchen management.

- *Contributed to the NopCommerce core codebase, introducing features like Facebook authentication, multi-factor ACL rules, and optimized discount management.

- *Built microservices for Shawpno's eCommerce platform, reducing checkout latency by 30% and enabling seamless mobile app notifications via Firebase.

- *Passionate about leveraging .NET technologies and modern cloud-driven architectures to deliver secure, scalable, and high-performing digital commerce solutions.

Here's a concise and professional summary tailored for your LinkedIn profile's work experience section:

Software Engineer | Brain Station 23 PLC | March 2021 – Present

At Brain Station 23 PLC, I have contributed extensively to eCommerce platforms, Point of Sale (POS) systems, and plugin development, leveraging a strong technical foundation in C#, ASP.NET, MSSQL, MongoDB, and Angular.

Key Achievements:

Macsteel B2B eCommerce Platform: Enhanced one of South Africa's leading eCommerce sites by integrating SAP ERP for real-time sales and inventory synchronization, implementing customer- and group-specific pricing customizations.

Shawpno eCommerce: Played a key role in developing a microservices-based eCommerce platform using gRPC, RabbitMQ, MongoDB, and Next.js. My contributions spanned API development, Angular-based admin interfaces, and integrating mobile apps with Firebase for notifications.

Point of Sale (POS) System: Led a team of three developers to build a NopCommerce-based POS system with features like multi-store support, AJAX-based interfaces, SMS OTP login, barcode product labeling, and kitchen management for restaurant stores.

Delivery Management System (DMS): Developed a plugin for NopCommerce to manage shipment tracking, barcode scanning, and proof of delivery (POD) via photo, signature, or OTP.

NopCommerce Contributions:

Created and improved plugins, including Ecomail, WebAPI, TaxJar, ZohoCRM, Copy&Pay (HyperPay), AdvancedSEO, and others, while enhancing themes like Kingdom, NopGadget, and Cape Town.

Enhanced the core NopCommerce framework by introducing features like reCAPTCHA in guest checkout, Facebook authentication, ACL rules for multi-factor authentication, and optimized discount management.

Software Engineer

July 2022 - August 2023 (1 year 2 months)

Dhaka, Bangladesh

Associate Software Engineer

July 2021 - June 2022 (1 year)

Dhaka, Bangladesh

I am working on the NopStation team as an ASP.Net Developer and got certification from NopCommerce. Developing different plugins for NopCommerce. Also worked on different projects to integrate ERP on NopCommerce. I am also Contributing to NopCommerce Core Codebase and developing new features and resolving issues for the next release versions.
